

IIM LUCKNOW

Post Graduate Programme in
Sustainable Management

**PLACEMENT
BROCHURE
2022-24**

PGP-SM at a Glance

IIM Lucknow takes pride in being the frontrunner amongst the IIMs to introduce a program that inculcates the essence of sustainability in conventional business education. PGP Sustainable Management is a two-year full-time post-graduate program offered at the Noida campus.

The program is designed to help managers develop a holistic perspective and imbibe the ethos of socio-environmental responsibilities. Also, to equip them with the skills to assess and preserve all stakeholders' interests in a dynamic and unpredictable environment.

In addition to conventional business dimensions of finance, marketing, operations and human resource management, the program focuses on:

Systematic linkages among environmental, social and economic challenges

Critical perspectives on policy institutions

Analysis of policy and regulatory framework for businesses

Facilitating Change-management

Assessment of environmental, social and corporate governance

Analysis of social and environmental risks and impacts

A minimum of **2 years** of work experience is a prerequisite for selection into the program.

The criterion ensures that the candidates are pre-equipped with deep understanding of the corporate world and possess strong business acumen to better appreciate the rationale of business enterprises and the nuances of the complex environment in which it operates.

Director's Message

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

We are presently at a juncture of human history when our businesses cannot be successful without roping in the crucial facets of sustainability within its strategy. Amalgamating such a strategy with the aspiration to maintain economic, social, and environmental synergy is one of the most crucial goals of modern leaders. This evolving paradigm brings into foray a new challenge in front of the leaders, finding individuals with the right level of empathy, intent, knowledge, skill, and experience to work for achieving the evolved ambition of their businesses.

To cater to this ever-growing need of the businesses, IIM Lucknow, with its vision of providing socially conscious and globally relevant thought leadership, became a pioneer in introducing a dedicated two-year full-time Post Graduate Programme in Sustainable Management (PGP-SM) from its Noida campus. I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

The dynamics of global and national businesses are increasingly being shaped by sustainability concerns. In the last two decades, as societies and businesses have become more aware about environmental degradation and climate change, more emphasis is being put on understanding of associated socio-economic implications and sustainable development, which are vital for businesses and societies alike. Social, economic and environmental sustainability have emerged on the forefront of business strategy and businesses are increasingly aligning their vision so as to be consistent with the global vision as well as vision of the geographies in which they are present. The changed business environment and evolving domestic and global policies and regulations are forcing companies to deal with a wide range of stakeholders that have dynamically evolving, and often conflicting demands from business.

Prof. Archana Shukla
Director, IIM Lucknow

Message from Chairperson, Career Development Services

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

Post Graduate Programme in Sustainable Management (PGP-SM) is a meticulously designed two-year residential MBA programme to sharpen the skills of young professionals in sustainability management. Growing environmental, social and individual level challenges with uncertainties make us all not only aware but sensitive to the continuously innovative requirements to meet the needs of government, corporates and individuals keeping in focus the environmental concerns. PGPSM programme equips its students to think, strategize and perform on this fundamental principal. This is the guiding force to our students to become and remain dependable performers throughout their career paths.

This program is contemporary and unique in its approach and content. The meticulously designed curriculum of PGPSM places a strong focus on applying theoretical concepts to real-world business scenarios through an applied learning approach especially with summer placement, 6 month long live integrated project with corporates, and the international immersion module. The hands-on projects provide a holistic understanding of real world at national and international levels.

A formal education helps one in number of ways to excel in one's career. It provides required knowledge and skills to perform on a job. However, a right mind set and a right approach to life with positive attitude in addition to formal education provides an ideal ground to excel in one's career. A rigorous schedule with attitude to serve society at large instils an indefatigable spirit in our students, ensuring they emerge as the best versions of themselves.

I take pleasure in introducing the students of PGP-SM and welcoming you as a partner in our journey of building exemplary talent and jointly contribute to building sustainable societies. On behalf of the Career Development Services of IIM Lucknow, I am delighted to welcome you to be a part of the Placement Processes for PGP-SM.

Prof. Anita Goyal

Chairperson - Career Development Services, IIM Lucknow

Message from Chairperson, PGPSM

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

With an ever-increasing exposure of businesses worldwide to non-financial risks and with environmental social and governance (ESG) issues becoming more material and mainstream in investment decision-making, the Securities and Exchange Board of India (SEBI) recently made it mandatory for 1000 top listed entities in India to furnish a Business Responsibility Report (BRR) to stock exchanges as a part of their Annual Report.

The businesses globally and in India are not just looking for conventional business leaders anymore but for a pool of newly skilled professionals who can marry the disciplinary management skills with specialized knowledge on business sustainability and responsibility to envision a more trustworthy business of tomorrow.

IIML rose to the occasion to fill the void and happens to be the only IIM in India to offer a unique full-time Post Graduate Programme in Sustainable Management (PGP-SM) that imparts and nurtures these desired skillsets.

I am glad to introduce the PGP-SM batch of 2019-21 and 2020-22 and would like to welcome you as a continued partner in our journey of building a more resilient business and society for tomorrow.

Prof. Ashish Aggarwal

Chairperson (PGP-SM), IIM Lucknow

Why recruit from PGP-SM?

Connected Education

With a melange of professionals from backgrounds in Energy, Manufacturing, Social, IT, and logistics, having held diverse functional roles such as project managers, designers, consultants, and educators, PGP-SM encourages variety in thought and perspectives through peer learning.

A plethora of group cases, role-plays, and projects facilitate a collaborative learning environment developing leaders with the ability to create synergy by engaging with all stakeholders and earning certifications.

Field Experience

PGP-SM emphasizes practical learning through the international immersion program and the 2-months summer internship - enhancing industry exposure and building competence and character. A unique feature of the program, the nine months -long integrated project provides hands-on experience by means of direct collaboration with the industry and enables students with a prior work experience of a minimum of two years to seamlessly transition into their careers.

Responsible Leadership

The PGP-SM program harnesses a finely tuned selection process with a rigorous curriculum designed to develop leaders with multi-dimensional business mindsets. Leveraging on unique pedagogical methods, every course facilitates a steep learning curve. It gradually moulds professionals poised to create extensive sustainable value in a dynamic business environment.

Learning Outside Classroom

The fully residential program enables participants to take a holistic approach to augment their learning outside the classroom. Participants are compulsorily devoting 45 Hours outside the classroom in completing industry driven projects spanning 9 months & 1.5 credits.

The diversity and collective experience of the participants are strong enablers that facilitate continuous mutual learning and growth, both as individuals and as team members. The close-knit group of participants ensures that group learning as a process is conducted effectively.

The students participate actively in the institute clubs to pursue their interests and more importantly evolve as individuals with a mind and a heart. Students are the sole organizers of social events, Dandia night, Ganpati Visarjan, Farewell, Nukkad Natak, Skits, Group Dance, Rangoli, Aagman etc. They organize these events with students of other programs which further expose them & improve group dynamics, team management & organizational skills.

Integrated Project

Students have a mandatory requirement of doing an Integrated Project with the industry for nine months during their second year. Integrated Project adds to their skills and makes them holistic

leaders with the potential to be recruited as mid-level managers. Some of the organizations with which students have worked in the past are:

4PEL	Elara Capital	MRIDA GROUP	Tata Sustainability Group
ACC CEEW JSW	Energyhive	Nedspice	Tata Trusts
Aditya Birla Group	GIZ	PayU	Treeni Sustainability Solutions
AXIS BANK	HDFC	PUMA	Ultratech
Biocon	Healthcoco Technologies Pvt Ltd	PWC	UPL Ltd
Biome Environmental Solutions Pvt. Ltd.	HPCL	Renew Power	Valluri
BPCL	IIEC NTPC	Sage Consultancy	Welspun
Cairn India Limited	IPE Global	Sattva Consulting	Wipro Corporate
Caspian Investments	Levidia Infra Pvt Ltd	Sustainable Square	YES BANK
CDP	Mahindra & Mahindra	SWEEP Enviro Pvt.Ltd.	Zinnov Consulting
Constems AI	MEDPLUS	Tata Motors	
CSTEP	Morning Star	Tata Steel	

International Immersion

The concept of sustainability mandates a 'Glocal' perspective which includes an in depth understanding of localized risks and challenges as well as a unified global strategy to strive towards holistic development. The international immersion module sensitizes the participants towards the best practices and robust administrative structures which exist in countries like Sweden and Denmark which are considered pioneers of sustainable development. A two-week sojourn in world renowned institutions like Linne University, Maastricht school of management is aimed at enriching the experience of a meaningful immersion.

The rigorous academic schedule is highly complimented with a conscious and deliberate interaction with experts from organizations such as IKEA of Sweden, Dong Energy, Rockwool and Volvo, Electrolux which are Industry benchmarks for sustainability in their respective sectors.

Moreover, the participants actively engage with local municipal bodies and citizen groups who are often instrumental in bringing about behavioral changes in society towards sustainable living. The programme also creates a platform for cultural exchange among participants and the local community.

Leadership Talk Series

At IIM Lucknow- Noida Campus, a series of guest lectures by distinguished business leaders, policymakers, and eminent entrepreneurs take place throughout the year. It is a student-driven activity that helps to bridge the gap between classroom learning and realworld business problems through experts. Every session enriches the perspective of the class on emerging trends and contemporary issues of the global business world. This section helps to create a path between the academia and industry, through which young generations forge a connect and later become solution providers for the worldly issues.
