TECHNICAL BID

A. SCOPE OF WORK

The scope of work under this contract shall include **Design, supply, installation, testing, commissioning, dismantling, and buyback** of existing Air Washer Unit and Air Scrubber Unit at IIM Lucknow Noida Campus as per details mentioned in the Bill of Quantity (BOQ). The contractor shall carry out the complete work strictly in accordance with the specifications, standards, and instructions of the Engineer-in-Charge. The detailed scope is as follows:

1. **Design, Supply, installation, testing, commissioning, dismantling, and buyback** of existing Air Washer Unit and Air Scrubber Unit at IIM Lucknow Noida Campus.
2. **All drawings, System Schematic Diagram, Equipment TS, Layout, GA Drawings etc. complete in all respect shall be submitted by contractor for Kitchen ventilation System and duly vetted by HVAC Consultant to ensure proper system functionality, shall be applicable.**
3. The Make of High Efficiency Air Washer unit & Air Scrubber system should be as per tender specifications.
4. The technical support team should be available in the location/city to take care of any specific technical problem that arises in the Air Washer unit & Air Scrubber system.
5. The successful agency shall prepare the necessary layout, General arrangement drawings and related drawings for the SITC of the units and get approval from the Engineer-In-Charge.
6. All necessary drawings/manuals etc related to the Air Washer unit & Air Scrubber system should be provided to the Estate dept.
7. All necessary approval, if any; related to installation from local authorities is/are to be taken care by the successful agency.
8. The works should be performed in such a manner that there is no disturbance to the other stakeholders /Kitchen Staff/ Office. Since the Kitchen is operational, the Working timings will be given as per the availability of the kitchen, which can be odd timings in the night or early morning or during the part breaks. Contractor will have to work as per the availability of the site and no additional payment will be made related to the non-availability of the site/ odd hours of availability of the site.
9. The Contractor will have to maintain all the necessary MTC and Field test certificates as may be necessary/ as per the relevant Specifications Applicable. All such records are required to be submitted on completion of the work.
10. There is laid down rules for the entry and exit of manpower and material inside the campus and the contractor will have to follow these rules. No compensation in this regard will be given.
11. All the buyback items / returnable items should be jointly recorded and then taken out / submitted to the concerned department.
12. All the hanging arrangements etc./ any associated civil works are in the scope of the contractor and he will have no claim for any such additional works.
13. Any Dismantling etc. done during the installation will have to be repaired and made similar as was existing.
14. As the dismantling involves cutting in Ceiling and repairing of the same after installation of the new Air Washer unit & Wet Air Scrubber system, successful bidder must ensure that there should not be any structural damages / any other damages to the property. If anything happens due to the same, then all necessary repair/replacements are to be borne by the bidder, and no payments shall be made by the IIML-NC for the same.
15. All other accessories/materials to be used for installation/maintenance should be as specified by the OEM machine units.
16. The successful bidder shall for be liable for all material/manpower and their safekeeping at their end.
17. The successful bidder should keep all insurance/bonds as may be desired for material/manpower at their cost. The successful bidder shall take all necessary insurance required for their workmen staff. If any injuries/casualties arise to the agency workmen/supervisors etc IIML-NC will not be held liable for the same and all claims are to be settled by the agency only.
18. The agency shall compulsorily follow all safety precautions/labour laws / Government guidelines / local laws related to the work, as specified from time to time.
19. If there is any deviation, the agency must get approval of the Engineer-In -Charge, IIML-NC.
20. The agency must complete the work within the specified timelines and the tender quantities. If any deviation arises, the agency must take prior approval in written from the IIML-NC Engineer-In -Charge.

21. No deviation in the rates is allowed. No conditional tenders are allowed.
22. The successful bidder must follow all necessary instructions/guidelines issued by IIML-NC for the execution of the work.
23. IIML-NC has all rights to terminate any related / all works, at any stage of time, without assigning any reason to the bidder.
24. The bidder will ensure to timely dispose off the melba/debris etc outside the campus at the Noida Authority designated place at his own cost after completion of the work.
25. The bidder will ensure execution of work without disturbing the smooth operation of the Kitchen & department working in the nearby building.
26. The bidder will ensure timely completion of the awarded work and agree and accept all the above Terms and Conditions completely in all respect.

1	Graduate Engineer I/M Or Diploma Engineer	Electrical	Project Manager cum Planning/quality / site/Billing Engineer	2 or 5 respectively	1	Rs. 15,000/- Per Month	Rs. Fifteen Thousand per Month

Assistant Engineers retired from Government services that are holding Diploma will be treated at par with Graduate Engineers. Diploma holder with minimum 10-year relevant experience with a reputed construction co. can be treated at par with Graduate Engineers for the purpose of such deployment subject to the condition that such diploma holders should not exceed 50% of requirement of degree engineers.

9 Special Directive to Contractor

9.1 Interpretation of Contract Documents:

- (i) All the documents (such as NIT, TENDERER DECLARATION, DEFINITIONS & SCOPE OF WORK, TECHNICAL SPECIFICATIONS, General Conditions of Contract, Special conditions of Contract which are available on IIML website and FINANCIAL BID) forming part of the contract are to be taken as mutually explanatory, supplementary and complementary to each other. If there is any error, omission, or discrepancy in any of them, it shall be brought to the notice of the IIM. The decision of the IIML-NC shall be final and binding. The contractor shall execute the work accordingly.
- (ii) The contractor shall examine all the contract documents thoroughly, including the scope, nature, and magnitude of works he has to execute in accordance with the contract documents.
- (iii) The contractor shall visit the project site so as to study the site conditions, means of access to the site, and other factors governing the works.

In case after award of workorder/LOI, the contractor fails to submit the performance security and agreement and start the work within the specified time line stipulated in this tender document, the work award will be cancelled by default and further punitive action such as forfeiture of EMD, performance security and blacklisting/Debaring of bidder from further bidding for 2 years on CPPP portal.

9.2 Period of Contract:

The time period for **Providing Kitchen Ventilation Arrangement at IIM Lucknow, Noida Campus** shall be completed within **60 days from the date of issue of LOI (Letter of Intent)**. The defect liability period on complete work is 1 year, including maintenance, service, and repair.

9.3 Authorities

The work shall conform to all provisions of the relevant Government Legislation, Regulations, and by-laws of the Central/Local Authorities and of any Companies to whose system the installation is proposed to be connected. The Contractor shall give all notices required under the said Acts, Regulations, and/or by-laws. The Contractor shall be liable for any omissions and commissions in this regard.

9.4 Specifications and Schedules

The Specifications and Schedule of Quantities shall be considered as part of this contract and any work or materials shown in Schedule and not called for in the Specifications or vice versa shall be executed as if specially called for in both.

The work shall be installed as indicated in the scope of work. However, any minor changes found essential to coordinate the installation of this work with other trades shall be made without any additional cost. The data given herein is as estimated, but its complete accuracy is not guaranteed. Exact locations, distances, and levels will be governed by the site conditions. Quantities can vary to any extent above or below. No compensation in this regard will be given. Any such kind of request will not be entertained.

9.5 Completeness of tender

All fittings, equipment, units, assemblies and accessories, hardware, bolts, terminal lugs for electrical connections, cable glands, junction box, piping, fittings and items that are useful and necessary for efficient assembly in operation and installation shall be complete in all details whether such details have been mentioned in the specification or not. Scope of work also include steel requirements for machine beams, bearing plates, buffer supports, and channels as required. All steel items not including but required for the installation work shall be part of the tender document.

9.6 Scaffolding

Scaffolding and minor builders work shall be the responsibility of the Contractor.

9.7 Certificate

Contractor may be required to submit the manufacturer Test certificates, Internal quality test reports from the factory and Guarantee/ warranty etc. Further, if required e-way bill may be submitted by the contractor on demand.

9.8 Spares

Contractors shall submit the list of recommended spares for 10 years of operation, listing items with individual prices. Undertaking from OEM that the Spares will not be ruled out of the Market for the next 10 years.

9.9 Documentation

The Contractor shall provide three sets of operation & maintenance manuals with instructions for routine and periodic maintenance. Training records, and guarantee/warranty should also be submitted.

(i) Delay in work execution due to reasons beyond contractor control:

Force Majeure:

If the execution of work is delayed due to force majeure, or due to circumstances that were not in the control of the Tenderer then IIML-NC as per the affected period may extend the time period as per the discretion of the Director of the Institute.

9.10 Dispute & Arbitration:

- (i) All disputes or differences whatsoever arising between the parties out of or relating to this contract or the specifications, designs and quality of work, quality of materials used for the work, construction, meaning and operation or effect of the work or the breach thereof that cannot be settled by good faith and negotiations between the parties within 60 days of the commencement of the negotiation shall be settle by mutually referring the dispute to a sole Arbitrator and the award passed by him shall be final and binding on the parties. The selection of an arbitrator shall be made by mutual consent. The cost of arbitration shall be divided equally. The proceedings will be governed by the provisions of the Arbitration & Conciliation Act, of 1996 and its latest Amendments. The place of arbitral proceedings will be Lucknow. The language of the arbitral proceedings shall be English
- (ii) By consent of Parties the jurisdiction of all other courts is excluded and the courts at Lucknow alone shall have jurisdiction.
- (iii) "Abandonment/incomplete work", wherein it should be mentioned that apart from the forfeiture of security the incomplete work shall be completed from some other agency, and the costs thereof be recovered from the contractor.

9.11 The service of notice will be given by e-mail, fax, courier, speed post, or registered post, and the address for service of notice be specified both for IIM, Lucknow and the contractor.

9.12 Escalation:

The rates quoted by the contractor in the contract documents shall be final and shall not be subjected to any change due to the increase in labour wages or inflation wages or inflation in the cost of materials or fuel or any other price variations due to any reason during the stipulated time period of the contract or during the extended time period of completion due to any reason which may be within or not in the hands of the contractor to stop the delay

10 Execution of Work: -

10.1 General:

All the work shall be executed in accordance with the specifications and instructions approved by the IIML-NC as mentioned in the contract document.

10.2 Inspection of works:

- (i) The IIML-NC shall have the full authority to inspect the works at any time, at any stage. The contractor shall provide adequate facilities to carry out the inspection work. The contractor should present himself or his authorized representative during the inspection so that the IIML-NC can convey the instructions regarding the works.
- (ii) The contractor shall give information to the IIML-NC before covering up the works so that the same can be inspected and measured jointly & correctly to true dimensions.
- (iii) If the contractor fails to get the work inspected before covering it up, then the IIML-NC has full authority to get the work uncovered at the expense of the contractor and if any fault is found then the contractor should rectify the same without claiming any extra payment.

10.3 Inadequate/substandard works and materials:

- (i) Material used should be mention in **BOQ**
- (ii) If any work executed by the contractor is found to be of bad workmanship, then the same is to be dismantled and re-executed by the contractor without claiming any extra payment or extension in the time period.

10.4 Default of Contractor in Compliance:

If the contractor or his authorized representative fails to follow the instructions given by the IIML-NC regarding any of the works, then the same shall be got executed by engaging other contractors/ persons by IIML-NC at the risk and cost of the contractor.

10.5 Discrepancies between instructions:

The several documents forming the Contract are to be taken as mutually explanatory of one another, detailed drawings being followed in preference to small scale drawing and figured dimensions in preference to scale and special conditions in preference to General Conditions. In the case of discrepancy between the schedule of Quantities, the Specifications and/ or the Drawings, the following order of preference shall be observed: -

- i. Description of Bill of Quantities.
- ii. Particular Specification and Special Conditions, if any.
- iii. Drawings.
- iv. IIM, LUCKNOW Specifications.
- v. Indian Standard Specifications of B.I.S.
- vi. G.C.C., S.C.C. etc.

If there are varying or conflicting provisions made in any one document forming part of the contract, the Accepting Authority shall be the deciding authority with regard to the intention of the document and his decision shall be final and binding on the contractor. Any error in description, quantity or rate in Schedule of Quantities or any omission therefrom shall not vitiate the Contract or release the Contractor from the execution of the whole or any part of the works comprised therein according to drawings and specifications or from any of his obligations under the contract. If any discrepancy occurs between the various instructions conveyed to the contractor or his authorized representative or if any misunderstanding arises between the contractor's staff and IIM's staff, the contractor shall report the matter immediately to IIM-NC. The decisions of IIML-NC shall be final and binding. Moreover, no claims for losses due to discrepancies between instructions, doubts or misunderstandings shall be admissible.

10.6 Liabilities for defects and rectifications:

If it shall appear to the IIML-NC that any work has been executed with imperfect or unskilled workman or with materials of any inferior description, or of quality inferior to that contracted for, or otherwise not in accordance with the contract, the contractor shall on demand in writing from the IIML-NC or his representative specifying the work, materials or articles complained of, notwithstanding that the same may have been inadvertently passed, certified and paid for forthwith rectify or remove and reconstruct that work so specified and provide other proper and suitable materials or articles at his own charges and cost, and in the event of failure to do so within a period to be specified by the IIML-NC or his demand aforesaid, the Engineer-in-charge may on expiry of notice period rectify or remove, re- execute the work at the risk of Contractor and the cost shall be recovered from the Contractor. The decision of the IIML-NC as to any question arising under this clause shall be final and conclusive.

10.7 Period of warranty:

The warranty period of the work is 01 year from the date of completion of the work as certified by the IIM-NC. If any problem occurs during the period of liability the same will be changed by the contractor at his own expense.

10.8 Suspension of work:

The contractor shall suspend the progress of work on receipt of the written order from the IIML-NC

In case of suspension of work:

- a. The contractor shall during such suspension, properly protect and secure the works and carry out the instructions of the IIM.
- b. IN such case the contractor shall be entitled for an extension of time equal to the period of every such suspension but no compensation for damages etc. shall be admissible on account of suspension of work.

10.9 Possession Prior to Completion:

The IIML-NC shall have the authority to take possession of any completed or partially completed work. Such possession shall not be deemed to be acceptance of any work completed in accordance with the contract. If such prior possession delays the progress of works then the adjustment in the time of completion shall be done accordingly. The decision of the Engineer-in-charge regarding the extent of delay shall be final and binding.

10.10 Care of Works:

From the commencement to the completion of works, the contractor shall take full responsibility for the care of all works and in case any damage or loss occurs then the contractor shall repair and make good the same at his own cost so that on completion of the work, the same shall be in good order in every respect in accordance with the contract and to the satisfaction of the IIM.

11 Certificate and Payment

11.1 Schedule of Rates:

- (i) The payments to be made to the contractor shall be as per the finalized rates in tender documents and the rates of extra items finalized from time to time.
- (ii) The rates finalized in the tender document shall remain firm till the completion of work including extension of time, if any.

11.2 Mobilization Advance:

No mobilization advance shall be paid.

11.3 Billing:

Payments for SITC /Providing Kitchen Ventilation Arrangement

The contractor shall submit the full and final bill for completed work (complete in all respects). The same will be measured by the concerned J.E. and payment will be made by the Finance section after Approval of the competent authority as per the IIM-NC procedure. Final Bill payment will be processed after the submission of user verification as per the standard IIML-NC format, submission of relevant Guarantee/ warranty, Manufacturer test certificate, and any other inspection/ test documentation mentioned in this tender document or instructed to be submitted.

11.4 Terms of Payment: Subject to any deduction which the IIML-NC may be authorized to make under this contract, the payment shall be made as follows: -

- a) 70% After initial inspection (wherever specified) and delivery at site in good Condition on pro-rata basis. Required documents as demanded by Accounts such as e way bill, E invoice, delivery challan etc. as per applicability has to be submitted for the processing of Bill.
- b) 5% security amount deducted from the running bill OR final bill will be refunded after the completion of Defect Liability Period of one year to be completed from date of acceptance of handing over the work to IIML-NC.
- c) 15% On completion of pro-rata installation.
- d) Balance 10% On testing, Commissioning and handing over.
- e) No advance payment will be paid.
- f) **Tax Deduction:** All statutory deductions like Income Tax, Works Contract Tax, E.S.I., P.F., entry tax, labour cess or any other government-imposed liability shall be borne by the contractor (as applicable at the time of execution of the job). Statutory deduction as per the government. the direction shall be deducted from each bill submitted by the contractor.

11.5 Provisional Completion Certificate:

When the contractor successfully completes the works as per the contract, he shall be eligible to apply for a provisional completion certificate in respect of the works. The IIML-NC shall issue to the contractor the provisional completion certificate after verifying the completion documents submitted by the Engineer-in-charge and satisfying him/ user Department that the work has been completed in accordance with the contract document. Further, the certification from the designer will be needed that the work had been completed as per the drawing/ design.

The work will not be considered as complete until all the temporary works, labour hutments, etc. are removed and the work site cleared to the satisfaction of the IIM-NC.

If the contractor fails to comply with the requirements of the above on or before the date for the completion of the works, the IIML-NC may, at the expense of the contractor, remove the tools and plants, hutment and surplus materials and dispose off the same and the contractor shall pay the amount of all expenses incurred.

12 Labour Laws and Safety Regulations

12.1 Labour Laws:

- (i) Labour below the age of 18 years shall not be employed on the work.

- (ii) The contractor shall not pay less than what is specified by the law to labours engaged by him on the work.
- (iii) The contractor shall, at his own expenses, comply with all labour laws and the IIML-NC shall not be responsible for any recovery/penalty imposed by the respective authorities for violating the labour laws.
- (iv) If the contractor is covered under the Contract Labour (Regulation & Abolition) Act, he shall obtain a license from the licensing authority (i.e. the office of labour Commissioner) before starting the work, by payment of the necessary prescribed fee and deposit, if any shall be borne by the Contractor.
- (v) The contractor shall furnish to the IIML-NC, the details of the workers employed on the works.
- (vi) The contractor shall comply with the provisions of the existing rules and regulations relating to labour laws.
- (vii) The IIML-NC shall on a report having been made by an inspecting officer as defined in Contract Labour (Regulation and Abolition) Act, 1980, have the power to deduct from the amount due to the contractor any sum required or estimated to be required for making good the losses suffered by a worker or workers by reason of non-fulfilment of the conditions of the contract for the benefit of the workers, or if deductions made from his or their wages which are not justified by the terms of contract or non-observance of the said regulations.

12.2 Minor/Fatal Accident on Duty:

For cases of minor/Fatal accident on duty not covered under compensation by IIML-NC, the contractor shall have to compensate the affected person/ family. The absence from duty, if takes place, due to such accident shall be considered as special leave and full payment shall have to be made for duration of such absence.

13 Safety Code

13.1 Safety and Protection:

The contractor shall adhere to safe construction practice and guard against hazardous and unsafe working conditions. While carrying out the work, the contractor should provide for;

- (i) Safety of personnel engaged in the construction.
- (ii) Protection and safety of works and materials during their progress.
- (iii) Sanitary and hygienic conditions of working and living for his workers, as required by the IIM.

13.2 Use of Safety Gadgets:

The contractor shall have to ensure the availability and use of all desired safety gadgets like safety belts, helmets, goggles, hand gloves, gumboots, caution tape, barricading, warning signs etc.

13.3 First Aid:

The contractor shall provide first aid facilities for his employees and those of his sub-contractors. The requisite first aid box and medicines should always be available at the work site.

13.4 Preservation of Peace:

The contractor shall take precautions to prevent any riotous or unlawful behavior by his workers, for the preservation of peace and protection of inhabitants and the security of property in the neighborhood of the work.

13.5 Details of Work Execution

- (i) The work shall be done in such a manner so as to clear workforce availability for other agencies working at the site.
- (ii) The finish of work shall be as per the details given by IIM.
- (iii) In general, the complete work is to be done as per Indian Standards and Aesthetic norms as specified and detailed in the Tender.

13.6 Site

The site is located at IIM, Lucknow, IIM Road, Lucknow. The contractor shall be responsible for the accommodation of the manpower and the movement of his men, materials, and equipment at his own cost.

13.7 Electricity

Electrical power at one point is to be provided by the IIM-NC. The Contractor will be responsible for getting electrical connectivity from the point specified by IIML-NC to his work site, including supplying cables, connections, and other required items.

13.8 Contractor's Scope of Supply

All materials required for executing the jobs specified in the Bill of Quantities, inclusive of all tools, tackles, scaffolding, consumables, and testing equipment, shall be procured and supplied by the contractor at his own cost, except for any items specified as IIML-NC-supplied.

13.9 Liquidated damage charges

0.05% per day of contract value for delays up to 15 days. 0.10% per day of contract value for delay from 15-30 days, and for delay beyond 30 days it will be 0.25 % of the contract Value per day. The total levy of this Liquidated damage shall not exceed more than 10% of the contract value.

In case the delay continues beyond 2 Months, then the tender/ Contract will be automatically canceled. Under these circumstances, the EMD/ Performance Security available with the Institute will be forfeited, and the Retention money/ balance 05 % payable value of the work (as the case may be) will not be paid. The Agency will be debarred from Biding with IIM Lucknow and will be blacklisted for 2 Years.

13.10 Recovery from the Contractor

- (i) If the contractor or his employees damage or destroy the property of the IIM, then the same shall be replaced/ refunded by the contractor, otherwise the expenses may be recovered from his bill or security deposit.
- (ii) All compensation and recoveries to be made as per terms of the contract shall be deducted from the contractor's bill or security deposit.
- (iii) Forfeiture of Security Deposit: Whenever any claim against the contractor is to be recovered then the same may be made from the security deposit (performance and retention or any other security available). If the contractor abandons the work or leaves the work incomplete, then the IIML-NC has the right to forfeit the security deposit.
- (iv) The contractor will make a fence around the area given for labour hutment to avoid unauthorized entry.

13.11 Buy Back Clause:

The contractor has to dismantle the existing exhaust & air washer system and remove it from the site. Transportation or any documentation from any other government organization is in the contractor's scope.

13.12 Altered/ Additional/ substituted work:

If the altered/additional or substituted work or any additional work required to be executed as per Institute's requirement shall be carried out by the contractor on the same conditions in all respects including a price on which he agreed to do the main work except as hereafter provided for which there are no established rates in the schedule of items and Delhi Schedule of rates., the same shall be payable as per the provision stated hereunder.

- a) If any extra item crops up during the work (Other than that given in the Work Order), the rate for such item shall be computed as per rates of CPWD/DSR-2023 with the same percentage above or below as is quoted by the Contractor in the Price Bid).
- b) Rates for items where rate is not available in DSR-2023 shall be derived from the similar item of nearest DSR. If not available in the nearest DSR then in the nearest District Schedule of Rates issued by the Uttar Pradesh PWD department. If the item is not found in DSR and District Schedule of rates, then the Percentage Rate from nearest available Schedule of rates of any Central/ Uttar Pradesh Government Department Shall be considered with whatever applicable Cost index plus or minus (If any as per relevant Circular from the department) on the schedule of rates considered.
- c) If direct working out is not possible as mentioned in a) & b) above, the contractor shall be paid on the basis of the actual cost of material and labor cost plus 15% towards profit, supervision, overheads establishment, plants, machinery, etc. and applicable taxes as decided by the Competent Authority.
- d) In the case of substituted items (items that are taken up with partial substitution or in lieu of items of work in the contract), the rate for the agreement item (to be substituted) and substituted item shall also be determined in the manner as mentioned in the following para:
 - (i) If the market rate for the substituted item so determined is more than the market rate of the agreement item (to be substituted), the rate payable to the Contractor for the substituted item shall be the rate for the agreement item (to be substituted) so increased to the extent of the difference between the market rates of substitutes item and the agreement item (to be substituted).
 - (ii) If the market rate for the substituted item so determined is less than the market rate of the agreement item (to be substituted), the rate payable to the contractor for the substituted item shall be the rate for the agreement item (to be substituted) so decreased to the extent of the difference between the market rates of the substituted item and the agreement item (to be substituted).

13.13 Service of Notice

All notices, consents, approval or other communication required to be given or served hereunder by either party hereto to the other party shall be in writing, and in English and shall be personally delivered to, left at, sent by registered post, email, courier, speed post or facsimile by either party to the other at the addresses mentioned herein below. Both parties agree that the facsimile transmission will not be used as a sole method for the communication of important notices such as any modification or termination.

17.	Any other item not mentioned above	As approved by Engineer in charge

Note: -

1. The decision of Engineer-in-charge regarding the model of make shall be final and binding based on the prevailing model at the time of execution.
2. This to be ensured by the site officials that the above-mentioned material to be installed at site has been procured by the contractor from manufacturer or their authorized dealer only and documentary proof for the same shall be attached with each bill.
3. In respect of materials for which approved makes are not specified above, then proposed makes shall be decided by the Engineer-in-Charge and as per sample approved before procurement & Installation.

ANNEXURE – A

DECLARATION OF SPARES/ SERVICES SUPPORT: Manufacturer's Authorization

To:

Date: _____

WHEREAS

We _____(OEM Name and Address), who are official manufacturers of _____(Providing Kitchen Ventilation Arrangement at IIM Lucknow, Noida Campus), having factories/offices at _____, do hereby authorize _____(Bidder Name) to submit a Bid the purpose of which is to provide the following goods, manufactured by us _____(Panel Component Description). We hereby authorize M/s ----- (Bidder Name) for Providing Kitchen Ventilation Arrangement at IIM Lucknow, Noida Campus after removing the existing ventilation system. We hereby confirm our full guarantee & warranty including support of spares & services for a **minimum period of 10 years** from operational acceptance.

BILL OF QUANTITY

Name of Work: - Providing Kitchen Ventilation Arrangement at IIM Lucknow, Noida Campus					
Sr. No.	Description of item	Unit	Qty.	Rate* (Excluding taxes)	Amount
1	Sub Head - 1 (SITC of Kitchen Ventilation System)				
2	Air Washer Unit with Cooling Coil				
	Supply, Installation, Testing and Commissioning of factory build floor mounted Horizontal draw, Double Skin sheet metal sectionalised construction Air Washer units with injected PUF in between. Complete with pre-filter section, fan section complete with floor standing forward curved DIDW centrifugal fan , belt drive package, base frame, squirrel cage TEFC induction motor & vibration isolation pads, wet section with S.S tank, cellulose pads, water circulation pump, and circulation arrangement, quick fill, float valve and drain assembly, eliminator section with eliminator all complete as per specifications. AWU shall be designed as per specifications and basis of design to give 90% adiabatic saturation efficiency. Including flexible canvas connections made of fire resistance flexible double canvas sleeve for duct connection. Air washers shall be selected for a maximum face velocity of 500 FPM at filter section and 500 FPM at cooling media. Anti vibration mount to avoid transmission of vibration on casing. as required and directed by Engineer-incharge.				
	Air Washer Unit				
	Outer skin = 0.6 mm pre-coated GSS				
	Inner skin (Wet) = 0.6 mm plain SS 304				
	Panel = 46 ± 2 mm thick PU Foam density 40 kg/m ³				
	Frame Work = Extruded Aluminium				
	Tank = 18G SS-304				
	Hinges and Locks = Aluminium Die cast				
	Cellulose Pad Section = SS 304 casing, 200 mm thick pad				
	Cooling Coil Section = 4 Row Deep Coil				
	Fan Section				
	Outer skin = 0.6 mm pre-coated GSS				
	Inner skin = 0.6 mm plain GSS				
	Panel = 25 mm thick PU Foam density 40 kg/m ³				
	Frame Work = Extruded Aluminium				
	Fan & Motor detail				
	Fan Size = 710 Dia(Forward Curved)				
	Motor = 5.5 KW				
	Pump = 1.0 HP - 02 Nos (1W+1 S)				
	Air washer - 15500 CFM @50 mmwg static pressure	Each	1		

					-
3	Air Scrubber Unit				
	Supply, Installation, Testing and Commissioning of factory build floor mounted Horizontal draw, Double Skin sheet metal sectionalised construction Air Scrubber units with injected PUF in between. Complete with fan section complete with floor standing Backward curved DIDW centrifugal fan, belt drive package, base frame, squirrel cage TEFC induction motor & vibration isolation pads, wet section with S.S tank, water circulation pump, and circulation arrangement, quick fill, float valve and drain assembly, eliminator section with eliminator all complete as per specifications. ASU shall be designed as per specifications. Including flexible canvas connections made of fire resistance flexible double canvas sleeve for duct connection. Air Scrubber Unit shall be selected for a maximum face velocity of 500 FPM at Eliminator section. wherever required, necessary vibration isolation arrangement as per specification complete etc as required and directed by Engineer-incharge.				
	Air Scrubber Unit				
	Outer skin = 0.6 mm pre-coated GSS				
	Inner skin (Wet) = 0.6 mm plain SS 304				
	Panel = 23 ± 2 mm thick PU Foam density 40 kg/m3				
	Frame Work = Extruded Aluminium				
	Tank = 18G SS-304				
	Hinges and Locks = Aluminium Die cast				
	Fan Section				
	Outer skin = 0.6 mm pre-coated GSS				
	Inner skin = 0.6 mm plain GSS				
	Panel = 25 mm thick PU Foam density 40 kg/m3				
	Frame Work = Extruded Aluminium				
	Fan & Motor detail				
	Fan Size = 710 Dia (Forward Curved)				
	Motor = 11.0 KW				
	Pump = 1.5 HP - 01 Nos				
	AIR SCRUBBER UNIT -18500 CFM @85 mmwg	Each	1		-
4	Supply and Installation of Dx Type ODU Unit with leakage protection coating as required and directed by Engineer-incharge. Supply and Installation ODU unit with gas 8.5 TR	Nos.	1		-
5	AHU kit as required and directed by Engineer-incharge.	Nos.	4		-
6	Supply Installation testing and commissioning of SS Hoods. External and internal parts to be manufactured in SS304 .18 Gauge Welded body construction. Removable 18GA SS V	Sqmt.	7		

	Section measuring in full length w/bottom of filters set in continuous channel. Grease Gutter on rear and side in each piece to be suspended on ceiling with hanger rods with MS chain, clamp, dash fastner, gasket, water proof canvas with GI Frame, ant vibrating mounting, cutting, MS jali, welding etc. complete in all respect. Height /Exhaust/Fresh air duct collar size shape and qty to be verified by site visit and scheme to be approved by concerned authorities.				
7	AIR DISTRIBUTION Supply, installation, balancing and commissioning of fabricated at site GSS sheet metal rectangular/round ducting complete with neoprene rubber gaskets, elbows, splitter dampers, vaney, hangers, supports etc. as per approved drawings and specifications of following sheet thickness complete as required. (Ducting layout drawing and its design to be got approved by E-in-C before fabrication and erection) 20 G - GSS(1.0MM)	Sqmt	20		-
8	AIR DISTRIBUTION Supply, installation, balancing and commissioning of fabricated at site GSS sheet metal rectangular/round ducting complete with neoprene rubber gaskets, elbows, splitter dampers, vaney, hangers, supports etc. as per approved drawings and specifications of following sheet thickness complete as required. (Ducting layout drawing and its design to be got approved by E-in-C before fabrication and erection) 22 G - GSS(0.80MM)	Sqmt	125		-
9	AIR DISTRIBUTION Supply, installation, balancing and commissioning of fabricated at site GSS sheet metal rectangular/round ducting complete with neoprene rubber gaskets, elbows, splitter dampers, vaney, hangers, supports etc. as per approved drawings and specifications of following sheet thickness complete as required. (Ducting layout drawing and its design to be got approved by E-in-C before fabrication and erection) 24 G - GSS(0.63MM)	Sqmt	180		-
10	Supplying and fixing of 19mm thickness duly laminated aluminium foil of mat finish closed cell nitrile rubber (Class "O") insulation on existing duct after applying suitable adhesive for nitrile rubber. The joints shall be sealed with 50 mm wide and 3 mm thick self-adhesive nitrile rubber tape insulation complete as per specifications and as required and directed by Engineer-incharge.	Sqmt	200		-
11	Supply an installation of Aluminium Cladding for Outside duct as required and directed by Engineer-incharge.	Sqmt	60		-
12	Supply and Installation of Copper piping for Dx type Air washer unit as required and directed by Engineer-incharge. 1/2" & 7/8"	RM	50		-

13	Supply, fabrication, installation and testing the flexible connections constructed of fire resistance flexible double canvas sleeve as per the approved shop drawings.	Nos	2		-
14	Supply, installation, testing and balancing of powder coated aluminium grille with collar damper as per approved shop drawings and specifications as required and directed by Engineer-incharge.	Sqmt	5		-
15	Supply, installation, testing and balancing of collar damper as per approved shop drawings and specifications as required and directed by Engineer-incharge.	Sqmt	2		-
16	Supply, installation, testing and balancing of GI Volume Control damper as per approved shop drawings and specifications as required and directed by Engineer-incharge.	Sqmt	3		
17	Electrical Starter Panel for Air Washer Unit & Scrubber Unit & ODU Unit as required/directed by engineer-in-charge. "The wall mounted electrical panel of 415 +10%, 50 Hz, 3 Phase AC supply, for power supply distribution for equipment listed below with all necessary power & control circuit breakers, contactors, SPPR, auto/manual selector switches, earthing and internal power & control cabling, terminations with necessary lugs and glands, etc.- Incomer MCCB/ MCB of suitable electrical rating- Individual outgoing feeders of suitable rating for Fan Motors, water pump & 2 spares feeders with 10amps rating The panel shall be of min. IP65 protection / Weather Proof" as required and directed by Engineer-incharge.	Set	1		-
18	Supplying & fixing/laying of required sizes of 1.1 KV grid multicore copper/ Aluminium conductor XLPE insulated and fire-retardant PVC sheathed armoured cable as per IS 7098 (part-1)1988 on surface of wall/ceiling/on existing cable tray complete as required and directed by Engineer-incharge.	RM	80		-
19	Structure for Air Washer and Scrubber Unit & ODU Unit as required and directed by Engineer-incharge.	Kg	300		-
20	Minor Civil Work: Making Wall Punching, Foundation for required equipment, fixing and water proofing for duct entrance and mending good the damages during erection work etc. complete in all respect as required and directed by Engineer-incharge.	Job	1		-
21	Supplying and installing required size of perforated Hot Dipped Galvanised Iron cable tray (Galvanisation thickness not less than 50 microns) with perforation not more than 17.5%, in convenient sections, joined with connectors, suspended from the ceiling with G.I. suspenders including G.I. bolts & nuts, etc. as required and directed by Engineer-incharge.	RM	80		
22	Providing and fixing Chlorinated Polyvinyl Chloride (CPVC) SDR-11 (class-1) pipes, having thermal stability for hot & cold-water supply including all CPVC plain & brass threaded fittings This includes jointing of pipes & fittings with one step CPVC solvent cement, trenching, refilling &	Mtr.	50		

	testing of joints complete as per direction of Engineer in Charge. (25 mm nominal outer dia Pipes) as required and directed by Engineer-incharge.				
23	Cat(B)-Sub Head - 2 (Electrical Work)				
24	Rewiring for light point/ fan point/ exhaust fan point/ call bell point with 1.5 sq.mm FRLS PVC insulated copper conductor single core cable and 1.5 sq.mm FRLS PVC insulated copper conductor single core cable as earth wire in existing surface/ recessed steel/ PVC conduit including dismantling as required and directed by Engineer-incharge. Group C	Points	30		
25	Wiring for light point/ fan point/ exhaust fan point/ call bell point with 1.5 sq.mm FRLS PVC insulated copper conductor single core cable in surface / recessed steel conduit, with modular switch, modular plate, suitable GI box and earthing the point with 1.5 sq.mm. FRLS PVC insulated copper conductor single core cable etc as required and directed by Engineer-incharge. Group C	Points	10		-
26	Supplying and drawing following sizes of FR/FRLS PVC insulated copper conductor, single core cable in the existing surface / recessed steel / PVC conduit as required and directed by Engineer-incharge. 3 x 1.5 sq. mm (FRLS)	Meter	180		-
27	Supplying and drawing following sizes of FR/FRLS PVC insulated copper conductor, single core cable in the existing surface / recessed steel / PVC conduit as required and directed by Engineer-incharge. 3 x 2.5 sq. mm (FRLS)	Meter	100		-
28	Supplying and fixing of following sizes of steel conduit along with accessories in surface/recess including painting in case of surface conduit including clamping, or cutting the wall and making good the same in case of recessed conduit as required and directed by Engineer-incharge. 25 mm	Meter	100		-
29	Supplying and fixing of following sizes of medium class PVC conduit along with accessories in surface/recess including cutting the wall and making good the same in case of recessed conduit as required and directed by Engineer-incharge. 25 mm	Meter	30		-
30	Supplying and fixing following size/ modules, GI/PVC box along with modular base & cover plate for modular switches in recess etc as required and directed by Engineer-incharge. 3 Module	Each	16		-
31	Supplying and fixing following size/ modules, GI/PVC box along with modular base & cover plate for modular switches in recess etc as required and directed by Engineer-incharge. 6 Module	Each	2		-

32	Supplying and fixing following size/ modules, GI/PVC box along with modular base & cover plate for modular switches in recess etc as required and directed by Engineer-in-charge. 8 Module	Each	2		-
33	Supplying and fixing following size/ modules, GI/PVC box along with modular base & cover plate for modular switches in recess etc as required and directed by Engineer-in-charge. 12 Module	Each	2		-
34	Supplying and fixing following modular switch/ socket on the existing modular plate & switch box including connections but excluding modular plate etc. as required and directed by Engineer-in-charge. 5/6 Amps. Switch	Each	10		-
35	Supplying and fixing following modular switch/ socket on the existing modular plate & switch box including connections but excluding modular plate etc. as required and directed by Engineer-in-charge. 15/16 Amps. Switch	Each	12		-
36	Supplying and fixing following modular switch/ socket on the existing modular plate & switch box including connections but excluding modular plate etc. as required and directed by Engineer-in-charge. 3 pin 5/6 Amps. Socket outlet	Each	5		-
37	Supplying and fixing following modular switch/ socket on the existing modular plate & switch box including connections but excluding modular plate etc. as required and directed by Engineer-in-charge. 6 pin 15/16 Amps. Socket outlet	Each	12		-
38	S/I/T/C of below mentioned specification LED luminaire & fixing of the same on the ceiling by providing the required down road/chain, clamp/screw/anchor bolt-nuts, washer, etc., making electrical connection, earthing etc. as required/directed by engineer-in-charge. 36 Watt 4Ft LED hanging Tube Light	No	30		-
39	Cat(C)-Sub Head - 3 (Comprehensive Maintenance)				
40	Comprehensive maintenance including routine, preventive and breakdown maintenance of the entire ventilation system including routinely cleaning of filters, checking and maintenance of other accessories for smooth running during the defect liability period of 12 months from the date of commissioning of the system. No payment shall be done during DLP. Comprehensive maintenance including routine, preventive and breakdown maintenance of the entire ventilation system including routinely cleaning of filters, checking and maintenance of other accessories for smooth running during the defect liability period of 12 months from the date of commissioning of the system. Materials / spares required to be replaced or repaired shall be got done by the contractor. No payment shall be done by the Institute.				

	Maintenance to be done as per maintenance schedule. Note: - Replacement of filters are within the scope of IIM-NC				
41	2nd year (1 Job means for a period of 12 months)	Job	1		-
42	3rd year (1 Job means for a period of 12 months)	Job	1		-
43	4th year (1 Job means for a period of 12 months)	Job	1		-
44	5th year (1 Job means for a period of 12 months)	Job	1		-
45	6th year (1 Job means for a period of 12 months)	Job	1		-
46	Cat(D)-Sub Head - 4 (Dismantling of existing Old Items)				
47	Dismantling of existing Old Air Washer, GI Duct, Air Scrubber, Electrical Wires, Switch Board, Lights etc. Completely in all respect as required and directed by Engineer-incharge.	Lump sum	1		-
48	Cat(E)-Sub Head - 4 (Less Credit for dismantled/buyback material)				
49	(-) Less Credit for dismantled/buyback materials complete as directed by engineer-in-charge. (Like: - G.I. duct, Old scrapped Cu. conductor, Air washer cabinet, Air Scrubber, SS Hood) Reserve price is Rs.50,000.00 (Fifty Thousand Rupees Only). Bidder cannot quote below this amount.	Lot	1		-
Total(A+B+C+D-E)					-

Note:

- The above rates are exclusive of taxes; taxes shall be payable extra as applicable.**
- The contractor is advised to survey the actual site for assessment of critical applications if any & accordingly quote the rates.**
- In case extraordinary variation is found in the **CAMC rate** quoted by the bidder as compared to the rates quoted by other bidders/ market rates for CAMC then the financial bid of that bidder will be Disqualified.
- IIML-NC reserve the rights to increase and decrease the qty as required for this project. This is estimated qty. Payment will be made as per actual qty executed.

Signature with the seal of the Contractor
